

Weekly Update 5

Kyle Coleman

October 9 - October 15

1 WEEKLY PROGRESS

1.1 OW BUILD AUTOMATION

1. Writing a .sh script to automatically build OpenWhisk on Ubuntu 14.04

1.2 GENI

1. Built a number of different GENI setups using xenVMs and actual servers.

2 NEXT WEEKS GOALS

2.1 SCRIPT

- Finish .sh script

2.2 MIDTERMS WEEK

- I probably won't get much done this week because of midterms.

2.3 PAPER

- Review feedback on the paper when we get a response.
- If it's rejected, make note of criticism so I can improve it.

3 ROADBLOCKS

1. the Ansible installation keeps messing up for some reason. Will have to do some trial and error to figure out whats going on.
