Weekly Update 2

Kyle Coleman

September 17 - 23

1 WEEKLY PROGRESS

1.1 OPENWHISK FUNCTIONS

1. Built a function for starting face-recognition process

2. Built a function to make a DB query

3. Built a function to make a HTTP post

2 NEXT WEEKS GOALS

2.1 OPENWHISK + FLASK INTEROPERABILITY

- Actually sending photos from Flask to server. Do I need some kind of program running on server to receive?

- Get the returned data to display on user device

- Possibly make Flask page for displaying info?

2.2 DATABASE

1. Work on building DB

3 ROADBLOCKS

1. I'm not sure how to get the photos from aggregator to OpenWhisk server

None right now
